From: MIS Team

Subject: Launching of PIA - Promo Information Assistance

CC: Office of the President, Business Head, Directors, and Department Heads

We are pleased to inform you that PIA (Promo Information Assistance) - is now published on the Google Play Store.

To address some of the Audit findings regarding wrong discounts given to clients, our team developed an android application tool that will assist our Empowerment Consultants. PIA's feature includes:

- Displaying the item details via scanning the attached QR tag
- Selection of Regular Promos, Monthly Promos, & Location-based Promos
- Automation of discount calculation (rounding off)
- Automation of Tax calculation

The new application is the result of the team's effort and analysis, and we believe it will provide our Empowerment Consultants with a user-friendly and highly functional tool. It has been designed to meet the needs of our stakeholders and to provide them with a seamless experience.

For your convenience, scan the following QR codes:
